

Important Instructions

Some people are open to instructions, while others tend to blow off receiving instructions. Sometimes certain instructions are vitally important, such as how to get into a locked room you need to enter right now. If you don't really *need* to get into that locked room, those instructions aren't very important—at least not now. But what if you *want* to get into that locked room? Then instructions become important to you again.

Arrange the following 10 types of instructions in the order of importance to you in terms of right now.

1. How to drive a vehicle
2. How to open your parents' safe
3. How to pray
4. How to use a cell phone
5. How to obtain salvation
6. How to get a certain person to like you
7. How to succeed in taking the SAT test
8. How to lead a Youth Sabbath School discussion
9. How to be a good friend
10. How to make your church awesome
